## Overview

Many companies overpay thousands of dollars due to improperly and ineffectively managing and depreciating their fixed assets. With ATMIT Fixed Assets System, you get total command over the entire fixed asset lifecycle – from acquisition to disposal. It has an intuitive interface that is easy to implement, learn and use. A seamless integration among the accounting, inventory, and reporting applications is one of its prominent features.

## General Features

- Web-based
- More secure connection using SSL protocol
- Multi-language: Arabic, English & others
- Multi-Currency
- Multi-company & Branches
- User friendly

## Fixed Assets System Features

Manage owned assets, keep track of depreciation's occurred on those assets and allow creating accounting entry for the depreciation lines:

➤ Asset Lifecycle Management

➤ Fixed Assets Management:

- Type (mechanical, furniture,...)
- Group (small, medium & big)
- Category

➤ Multi-depreciation rules: calculation of depreciation rules using three methods (straight, 150% & 200%)

➤ Ability to transfer any fixed asset to "Maintenance" module in a click of a mouse.

➤ Barcode Creation & Management (length of digits and letters)

➤ Tag/Barcode traceability

➤ Fixed assets accounting

➤ Integrated document management system

➤ 360 degree manager's analysis reports

➤ Fixed Assets Tree Report

➤ Depreciation Report

➤ Dashboard
